

## NOTICE

Area 87 Helpline Virtual Solution

***Making 12 step service viable to everyone, regardless of geographical location***

Advancements in technology combined with the internet have led to a new generation in phone systems. We believe utilizing this technology will enable us to never miss a call, and give a broader number of members the opportunity to put our ***Responsibility Statement*** into action.

As part of our 2012 mission the Area 87 Helpline Committee is dedicated to implementing this technology in the New Year.

Respectfully submitted

Sharon W.  
Area 87 Helpline Coordinator
